

Corry, Pa. Dec. 31/85.

To the Director of the U.S. Mint,
Philadelphia }

Dear Sir,

Inclosed find
a 5¢. Coin which I found among
my change. I suppose it to be spuri-
ous, and yet I am not certain, as
it is possible that what seems to be a plate
may be merely a laminæ - a fault
in the plate from which it was made.
I send it to you so that if it is
spurious, the government may possibly
get on the track of the manufacture.

Respectfully

R. S. Borland.

NARA RG104, Entry 1, Box 143

[Abstract:] Encloses what he thinks a spurious 5 ct. coin.

Corry, Pa.
December 31, 1885

To the Director of the U.S. Mint
Philadelphia

Dear Sir,

Inclosed find a 5 ct. coin which I found among my change. I suppose it to be spurious, and yet I am not certain, as it is possible that what seems to be a plate may be merely a lamind [sic] & a fault in the plate from which it was made. I send it to you so that if it is spurious, the government may possibly get on the track of the manufacturer.

Respectfully,
R.S. Borland
